SUBJECT INDEX

A

Analgesia
  epidural
    in the dog, 9
Arterial pedicle graft(s),
  caudal superficial epigastric,
    in the dog, 103
Arthroplasty,
  total hip,
    canine,
      a clinical study, 20
Arytenoidectomy, partial,
  in the horse, 5

B

Bladder,
  urinary,
    eversion of as a sequal to third-degree perineal laceration in the mare, 66
Bone grafting
  osteoarticular allogeneic
    in dogs, 83

C

Coxarthrosis,
  in the dog,
    normal and abnormal biomechanics of the hip joint, 6

D

Disc disease,
  thoracolumbar,
    dorsal decompressive laminectomy for treatment in dogs, 24

E

Electrosurgery, 27
Eye,
  orbital surgery in two horses, 61

F

Femoropatellar joint,
  equine,
    a surgical approach to the lateral approach to the, 5
Femur
  head and neck excisions,
    retrospective study of the efficacy of, in dogs and cats, 88
Femur,
  measurements of neck–shaft angle in the growing beagle
Fluoroalkyl cyanoacrylate, experimental use in canine urethral anastomosis, 13
Fractures
  mandibular
    Bi-Phase external skeletal splint fixation of,
      in dogs, 3
Fractures,
  tibial, (Salter II-Type)
    distal,
    closed reduction and plaster cast immobilization in the cat, 34
Fracture
  ulna
    repair with radial luxation in a horse, 58

G

Graft(s)
  caudal superficial epigastric arterial pedicle,
    in the dog, 103

H

Healing,
  of sharp incisions and electroincisions in dogs, 42
Hemiarthroplasty,
  coxofemoral replacement,
    experimental,
    in the pony, 116
Hip,
  canine,
    a clinical study of total hip arthroplasty, 20

I

Incisions,
  sharp
    and electroincisions,
      healing in dogs, 42

J

Joint
  carpal,
    equine,
      a prosthetic implant for, 93
Joint
  femoropatellar
    equine
      a surgical approach to the lateral approach to the, 5
Joint
  scapulohumera
    craniomedial approach to, in the dog, 74

L

Laminectomy,
  dorsal decompressive,
    for treatment of thoracolumbar disc disease in dogs, 24
Ligament
  anterior cruciate
    a technique for reconstruction of,
      in the dog, 4
Ligament
  cranial cruciate,
    folding of the caudal horn of the medial meniscus secondary to severence of, 1

M

Mandible
  fractures
    Bi-phase external skeletal splint fixation of
      in dogs, 3
Meniscus
  medial
    folding of the caudal horn of, secondary to severence of the cranial cruciate ligament, 1

O

Oophoritis
in a horse, 7
Otitis externa
in the dog
a history of the surgical management of, 8

P

Patella, congenital lateral luxation of, surgical repair in the foal and calf, 1
Perineal laceration,
third degree
eversion of the urinary bladder as a sequel to, 66
Prosthetic implant,
for the equine carpal joint, 93

R

Radial head
canine
surgical management of lateral luxation and subluxation, 49

S

Sciatic nerve paralysis
tendon transfer for treatment in the dog,
experimental evaluation, 72
Skin,
vascular supply to,
in the dog, 77
Splint
Bi-phase external skeletal fixation of mandibular fractures in dogs, 3
Surgery
orbital
in two horses, 61

T

Tendon transfer,
for the treatment of sciatic nerve paralysis in the dog,
experimental evaluation, 72
Tibia,
closed reduction and plaster cast immobilization of distal fractures in the cat, 34
Tibia
nonunion
closed reduction by transfixation pinning, 2
Transfixation pinning
closed reduction of a tibial nonunion by, 2
Transureteroureterostomy,
microsurgical,
ureteral function and healing following, in the dog, 108

U

Ulna,
fracture,
repair with radial luxation in a horse, 58
Ureter
function and healing following microsurgical transureteroureterostomy in the dog, 108
Urethra, anastomosis of, experimental use of fluoroalkyl cyanoacrylate in dogs, 13

V

Vascular supply,
to the skin in the dog, 77
